

### SpyeFront

Silver in color, SpyeFront is an optical front projection film with an adhesive backer that allows for easy application on glass or acrylic. SpyeFronts' optical qualities provide high contrast imaging in challenging lighting conditions. SpyeFront is sold by the linear inch off a 68" wide roll.

### Applications:

- corporate lobbies and board rooms
- hotel lobbies and meeting rooms
- houses of worship
- museums and exhibits
- learning institutes
- tradeshows
- home entertainment
- retail and in-store displays

### Care and Cleaning:

For best results, gently remove marks from screen surface with a microfiber cloth and mild soapy water. Allow surface to dry completely. Do not use any cleaners with ammonia, alcohols, or any industrial cleaning fluids!!

Gain	7
